J. KIRIT & BROTHERS

THE RIGHT DISTRIBUTION PARTNER SINCE 1973

AUTHORIZED DISTRIBUTORS & IMPORTERS

ABOUT US

Our story began in 1960, providing infrastructure, logistics and warehousing facilities for some of India's leading corporations. Today, our sister concern, Hansraj Pragji & Co, owns and operates warehouses over 120,000 square feet of prime real estate, in and around Mumbai city.

In 1973, we diversified into chemical trading and imports, along with stock and sale facilities, under J Kirit & Brothers (JKB). Helmed by our partners Mr. Kirit Mehta and Mr. Jawahar Mehta we began sourcing chemicals from around the globe and acquired exclusive distributorships for India.

Today, JKB has established itself as a leading chemical importer and distributor with excellent networking facilities. Our clients include some of the largest industrial and chemical companies across India. Our clientele spans various industries such as paints and coatings, synthetic resins, petrochemicals, adhesives, flavours and fragrances, pharmaceuticals, nutrition and feed, and many more. Our employees are well versed and experienced in the field, allowing us to provide our clients with a seamless one-stop shop experience, from inquiry to delivery. At JKB, we pride ourselves on our hard-earned reputation of ethical practices and loyalty to our customers and our suppliers. We provide world-class products and on-time delivery at a competitive rate. Our range of products, vast experience, skilled employees, and in-house warehousing facilities make us the preferred partner for all your chemical needs.
